RE COMPELLING LAWYERS TO SIGN BONDS

Have you a Twenty Pay Life Policy?

Nothing can absolutely replace your life—but a olicy will in some measure offset the financial loss which will come to those who now look to you for

It may pay off the mortgage, supply food and cloth-ing for your family, keep the children at school. It may be all that is left of your life work—to keep you in comfort in your old age.

But—your Policy must be large enough.

The Twenty Payment Life

policy is selected by many for the following reasons:

Premiums cease in twenty years—therefore your policy will be fully paid for before you reach later life —when your earning power will have declined.

Cash values increase year by year, and after the third annual premium the policy cannot lapse as long as sufficient value exists.

Dividends are paid during the twenty years and as long as the policy remains in force thereafter.

After two years the policy is indisputable, and you may reside or travel in any part of the world, or engage in any occupation (except aviation) without affecting your insurance.

A twenty pay life policy will provide an amount in event of death equal to twenty or thirty times the annual premium, and produce an estate of \$2,000, \$5,000, \$10,000, or more as arranged.

An Easy Savings Plan

These active progressive years of life in which you earning the most money are the years in which miums can be most easily met.

Twenty years is a convenient period and premiums oread over that length of time are moderate and easy to andle.

If You Are Insurable

do not delay decision on this important matter—delays are dangerous.
